Roast Beef—Juicy
Everybody prefers roast beef that is juicy and delicately browned rather than dry with a thick hard crust
But few people know that the material of which the oven is made gives the kind of crust to whatever is cooked in it
Some materials are called porous—that is if you examined them with a microscope you would see innumerable little holes
Through these the heat from the fire is absorbed into the material—which can be made very hot indeed but the heat given out is steady, even, never too intense—such a material is said to radiate the heat
You can easily understand that anything baked in this kind of steady, even, not too intense heat, will have just the most delicious sort of crust—meat will be juicy, not dried up
Cast-iron gives out a heat like this—it is a porous material—it is used for all the ovens in WEDGEWOOD CAST-IRON RANGES
That is one reason they bake and roast so well
The man in your town who will show you WEDGEWOOD RANGES enjoys the reputation of rendering good service

BOARD OF SUPERVISORS IN SESSION

The Board of Supervisors met in regular session Monday, October 2nd, at 10 a. m., there being present, Jos. M. Francis, presiding; Jas. T. Casey, Wm. H. Brown, John MacBain and C. V. Thompson.

Horticultural Commissioner Newton A. Peck submitted his report, showing that he had inspected during the month 1420 plants, trees and shrubs, 200 of which were found to be infected with scale. The Commissioner called the board's attention to the Argentine ant which is threatening to become a menace to the horticultural interests of the county, on account of it being a protection to the scale against attacks of parasitical insects.

The following persons having complied with the county ordinance and furnished the required bond, were granted liquor permits:

First Township—John Mangini, Millbrae.

Third Township—Harry E. Hallett, Portola; Bruno Bendorf, Woodside.

Fourth Township—William Debenedetti, Halfmoon Bay.

(Class C)—Third Township—Neuman Bros., Woodside; Second Township—Adams & Bacon, Belmont.

The application of M. O. Anderson, a groceryman of Salada Beach, for a Class B license was held up for 30 days, at the request of District Attorney Swart, and on motion of MacBain, seconded by Brown, it having been reported to the district attorney that the applicant had been running a blind pig.

When the application of Stanislaus Ortez of Colma for a first class license was presented for its second reading, District Attorney Swart addressed the board and stated that he had received a protest against the granting of the license from Rev. W. A. Brewer of Hillsborough and from several prominent citizens of Colma. These protests were coming to him in the form of written petitions. In view of the remarks of Superior Judge Geo. H. Buck concerning the notorious resorts in the county at the time he sentenced Edward Conway to six years at San Quentin and in view of the protests received, the district attorney said he would ask to have application of Ortez rejected. This action wkas taken by the board on motion of Casey seconded by MacBain, the supervisor from the First Township stating that he was against granting any liquor licenses that the citizens of the county were opposed to.

The following applications for liquor licenses will be acted upon a month hence:

Second Township—F. J. Vanderliuth, Belmont.

Third Township—Julius Schenkel, Portola; John Beltramo, Menlo Park (Class C).

Fourth Township—Fred Campbell, Halfmoon Bay; A. Luccesi, Purissima; H. Schuldt, Halfmoon Bay (Class C); Maymie Cawley, Halfmoon Bay (Class C).

Fifth Township—A. Silva, San Gregorio.

An application for support was received from Jacoba Escobar, aged 86, of South San Francisco, seconded by Thompson, the applicant was granted $8 per month.

An application received from a man named M. Frucht of San Francisco for a junk dealer's license in the county, was denied, on motion of MacBain, seconded by Casey.

Upon recommendation of County Surveyor Neuman the contract of Eaton & Smith for the construction of the Hillsborough to Crystal Springs Lake road was accepted as completed on motion of Brown seconded by Casey.

A communication was received from W. N. Drown, president of the Portola Investment Company asking the board to take some action fencing their property through which the new La Honda road traverses, it being understood at the time that the company granted a right-of-way for the road that this would be done.

On motion of MacBain, seconded by Brown it was ordered that the fence be constructed on both sides of the road as requested in the communication.

A communication was received from the State Board of Control acknowledging receipt of a copy of report of the committee of three prominent women of San Mateo in the case of Mrs. Jennie Demartini, widow, of that place whose state allowance for five minor children had been cut down from $31.25 a month to $25 a month. The communication stated that the problem facing the Board of Control in the administration of this fund was a tremendous one and that they are facing a deficiency of $250,000. The Board suggested that the county take steps to increase its allowance of $8 for the family a month to $15 a month. Supervisor Brown took occasion to address the board at this time. He gave his opinion that the sum of $8 a month which the county is allowing for aid is not sufficient at the present time to meet the needs of those seeking held.

"It was alright twenty or thirty years ago but not now when living is so high," he said. "I believe the board should begin to think about increasing the allowance."

Undersheriff H. W. Lampkin addressed the board with reference to reimbursing the men who at the request of the State Fire Warden fought the forest fires in the Santa Cruz mountains last month. The members of the board were unanimous in their opinion that the fire fighters should bepaid for their services, but as there seemed to be some question as to the right of the supervisors to pass the claims it was decided to refer the question to District Attorney Swart for his legal opinion.

A petition signed by H. C. Tuchsen J. B. Perry and others was received asking for the construction of a road leading from Tunitas Glen road to connect with the Durham road which leads to the Summit Springs road going north and the San Gregorio road going south. Rights of way for the proposed new thoroughfare would be granted over the properties of Tuchsen and Perry.

H. C. Tuchsen appeared before the board in behalf of the petitioners and showed the benefits that the county would receive by the construction of the above road.

On motion of MacBain seconded by Casey it was ordered that the chairman appoint three members of the board and the county engineer to look into the matter of the above proposed roadway. Chairman Francis thereupon appointed Supervisors MacBain, Brown and Francis to act with Engineer Neuman on the committee.

On motion of Casey seconded by MacBain, the board decided to visit the county farm and hospital in a body at an early date on a tour of inspection.

A petition signed by Mrs. T. T. C. Gregory and other tax-payers of the Menlo Lighting District was received asking for the installation of eight additional lights in the Menlo Oaks district. The request of petitioners was granted on motion of MacBain seconded by Casey.

District Attorney Swart presented and read an ordinance governing and regulating the dumping and leaving of papers, cans, bottles and offal on public highways, parks and thoroughfares of the county. The ordinance was adopted on motion of MacBain seconded by Casey.

Supervisor Brown addressed the board and called attention to the necessity of a new liquor ordinance for the county inasmuch as the existing one is not sufficient to meet present conditions. On his motion seconded by Thompson District Attorney Swart was directed to draw up a skeleton ordinance to be submitted to the members of the board.

The board adjourned at 1 o'clock p. m. to meet Monday, October 9, at 10 a. m.

ROYCE OF HARVARD LINGERS IN MEMORY

Became Distinguished Professor; Was Married to Daughter of Late Judge Head

The death of Professor Josiah Royce of Harvard University, the widely-known philosopher, removes an interesting character. Old residents of Grass Valley remember him as a little, freckle-faced boy, with bulging brow and a shock of red hair who delivered milk from his father's small dairy.

Later, at San Francisco, he attended the Boys High School, and frequented the Mechanics Library, where he seemed to want to devour all the books. Then he went to the State University, where he was made a member of the faculty. But there was dissension in the faculty during the administration of President Gilman and Royce seemed to feel that his position was uncomfortable so he apparently welcomed a call to Harvard.

There, at the oldest and perhaps the foremost University in America, in the placid atmosphere of delightful Cambridge, so near the Bostonian reservoir of brains, he flourished and became extensively appreciated.

He had married a bright and attractive daughter of Judge Head of San Mateo county and was well known in Redwood City. The Judge was the very embodiment of justice for he had been striken with blindness while on the bench, but was so very popular that he was retained in his position. Yet he had many old-fashioned ideas. His patriarchal clerk here, Mr. Thompson, once tried in the kindness of his heart, to ingratiate with the Judge a young San Francisco lawyer in attendance on the court here, by mentioning that the lawyer had annotated the Code. But the Judge launched into a diatribe against all Codes, and the lawyer retired in confusion.

When Royce revisited Berkeley and appeared before the Philosophical Union he talked on and on about the peculiarities of Monoism, and on recollections of our earliest feelings of consciousness, until he could hardly be followed even by those who kept fairly abreast of philosophic thought. He seemed altogether at home in all the intricacies of the problems which the newspaper humorist and the sweet girl graduate describe as "The Whence, the Why, and the Whither." He also appeared to be entirely ready to explain the situation sometimes similarly called "The Whichness of the What."

His first and best-known work was "The Spirit of Modern Philosophy," which dwelt much on German philosophy and favored the Idealism of Hegel and Fichte. His special contribution to thought was on the philosophy of Loyalty.

MT. CARMEL FESTIVAL

The festival under the auspices of the ladies of Mt. Carmel Church opened at the Alhambra theatre on Thursday evening. The Redwood City band and pupils of the Convent presented a very interesting program. The various tables are all beautifully decorated and a large assortment of articles are on exhibition. The Alhambra was crowded with the many friends of the ladies who have worked so hard to make the affair a success. The festival will continue on Saturday and Monday evenings when the drawings for the various prizes will take place.

ESTEEMED RESIDENT DIES AT MAYFIED

Margaret Crowley, widow of the late Jeremiah Crowley, died Monday morning at the Crowley home in Mayfield. She was a native of Ireland and a pioneer of Mayfield. Patrick A. Crowley, son of the deceased, is marshal of Mayfield and his brother Michael is a contractor there.

Mrs. Crowley is survived by a daughter, Mrs. Annie Stacy of Redwood City and four sons, J. J. Crowley of San Francisco, E. A. Crowley of Chicago and Patrick and Michael Crowley of Mayfield.

The funeral took place on Wednesday. The interment was in Holy Cross Cemetery, Menlo Park.

FLAG PRESENTED TO SUPERIOR COURT

At the convening of the superior court on Thursday morning Judge Buck was greeted by a delegation from the Relief Corps who presented him with an American flag to be displayed in the court room. The presentation was made by Mrs. J. E. Harris in a well phrased and nicely delivered address after which the ladies joined in sweetly singing the "Star Spangled Banner." Judge Buck responded in a gracious manner thanking the Relief Corps for its kindness and generosity. He said the flag would be a gentle reminder to all aliens in becoming naturalized in the court to be loyal and grateful to the starry banner. He lauded the work of the ladies and incidentally called their attention to an address which he made in Germania hall in 1882 pledging his best efforts to put women on an equal footing with men in all civic matters, and said he was happy to see that the women have finally secured the equal rights which they so richly deserve.

TOWN TRUSTEES ENDORSE JIT CARS

Reports, Bids Ordered, Plans and Sundry Other Matters Duly Considered

Monday evening the board of town trustees adopted resolutions endorsing the action of the Chamber of Commerce in undertaking to establish the Fadgl system of flexible cars and urging all citizens to generously subscribe to its support. A committee from the Chamber of Commerce appeared before the board and discussed with the board their plans in bringing the territory tributary to Redwood City in closer communication with the principal thoroughfares of the city. They explained that they wished to make it as near a municipal affair as possible. All phases of the proposition had been investigated and the undertaking should prove a great benefit to the city.

Reports from Col. Reese of the engineering department of the government were that the war department had not seen fit to close Redwood creek above Bradford street as a navigable stream. Although this is a set back to removing the flood from Broadway to Bradford street, Chairman Sampson expressed the belief that the matter would be pressed at a different angle and the much needed improvement put through.

Bids were advertised for in the construction of the necessary water ways for the Highlands drainage district returnable October 23. The protest of a number of residents on Arguello street against this work was formally overruled.

A number of claims of former city engineer E. J. Finlay were gone over by the board and referred to the finance committee for their approval. Attorney Gordon of San Mateo represented Mr. Finlay before the board.

Ordinances establishing the office of superintendent of the municipal water system and defining the duties of the superintendent of streets were given final reading and adopted.

City Engineer Porter presented plans for handling of storm waters on the lower portion of Chestnut street. The work being urgent and the cost nominal the matter was left in the hand of the street committee with power to act.

Phone connections were provided for the office of the city engineer and superintendent of streets.

The treasurer's report showed a balance of $2,789.15 in the water fund.

The following collections were made by the town marshal and ex-officio license and water collector:

Water rates	$1900.35
Water connections	61.00
Sewer connections	2.50
Miscellaneous licenses	10.00
Dog licenses	4.00
Roller hire	9.00
Personal property tax	453.70

The usual budget of claims for the month of September were allowed.

There being no further business the board adjourned until their next regular meeting night which is October 16th.

UNIVERSITY REALTY CO. SALES

This week the University Realty Company closed two big real estate deals. The company sold 80 acres of land near the fish hatchery to San Francisco parties who are to subdivide property into small parcels. The land is covered with a virgin growth of tall redwood trees. It will be just the property for San Francisco business men to build bungalows on and spend the weekend to get away from the busy cares of life in a big city. A three hundred and sixty acre tract adjoining the Pope estate and known as railroad lands has been sold by the company to a San Francisco capitalist who intends to erect a fine summer home on the property. For some little time there has been a great activity in La Honda realty. Good roads have been the impetus that has drawn home seekers.

REDWOOD GIRL PASSES AWAY

Mrs. John Austin known in Redwood City in her girlhood as Emma Weaver passed away at Fresno early this week following an operation for appendicitis. She was visiting the family of her brother, John Weaver of Palo Alto, last week when she was taken suddenly ill and was rushed south and before she reached her home was operated upon. Mrs. Austin left here about twenty years ago for Fresno where herself and husband own considerable real estate. Besides her husband she is survived by one son about twenty-three years old. The Weaver family was well-known in Redwood City a quarter of a century ago. The elder member of the family conducted a tailoring establishment in the old Hadler block doing a thriving business in those days. The Weavers went South when the boom struck that section of the State many years ago. All members prospered and became wealthy.

TEACHERS' INSTITUTE AT SAN MATEO

County Superintendent Roy Cloud Comes Back in Answer to School Critics

The two hundred and two teachers of San Mateo county met at San Mateo Monday morning in the auditorium of San Mateo Highschool. It was a pretty and comfortable place to meet in and the gathering was about as fair to look upon as any that assembles in San Mateo county. Youth, good looks and pretty, stylish gowns and hats were much in evidence. The old fashioned, vinegary or parchment teacher was not there. The profession has eschewed the prudish. Even the lecturers were modern, real personages, whose words were worth listening to. Of course the great majority were young ladies. Only a sprinkling of men appeared. All were intelligent looking so it may be said that the trustees of the county have done extraordinarily well in providing excellent instructors for the rising generation.

Superintendent Roy W. Cloud called the gathering to order and one hundred and ninety-five teachers answered to their names. Those who did not answer must explain to the Board of Education the cause of their tardiness or absence. When their excuses are found to be unreasonable their salaries for the week are withdrawn; consequently, very few are ever absent or even tardy.

Superintendent Cloud announced that this was the fiftieth institute in the history of the county and the tenth over which he had presided. Having been with the teachers so long he felt free to commend or criticize. Recently there had appeared a criticism of our schools written as a thesis by a Mr. Williams of Stanford. Parts of this were upheld and others parts condemned. The Superintendent had visited many of our schools recently to see for himself if what was said concerning the sanitary conditions had any foundation. He was glad to say that he had found all the schools, except two, above suspicion in this respect.

He was not entirely satisfied with the work as it is being done in language. Natural mistakes should be corrected constantly and more work should be done in oral composition. He desired all the new teachers to meet him at any time to discuss the course of study or any other problem that may seem indefinite. He asked each of the 202 teachers to secure through their pupils and themselves at least one membership in the Red Cross. When all the world outside is having so much distress and we so much prosperity we should show our sympathy to this very small extent. The superintendent's sincere words of affection and direction merited and received a hearty response from the teachers. Nearly everyone of them knows the superintendent to be a loyal friend.

In a patriotic way the work began with the singing of "America" led by Prof. O. M. Carrington, who, following, favored all with a couple of his choice solos.

Commissioner of Secondary Education Will C. Wood, gave his lecture upon "Forming and Reforming Schools." He told how continuing to be a student retains youth and energy for the teachers making them more competent in their work, that an effort should be made constantly by every teacher to make life in school more congenial for the taught, how to study in the high-school as well as the grammar school in order to save time, that he was not in favor of home study because the surroundings in most homes were contrary to such work, and that the library should be used to form the good habit of seeking information.

Mrs. Clara Cuthbert of the Hillsborough school invited all teachers to visit the model new school in her district and she added that automobiles would be on hand to convey them back and forth. At the close of the Monday afternoon session this invitation was enjoyed by all. The model school was inspected and praised and light refreshments were partaken of with pleasure.

For a part of the first day the institute was divided into sections one and two, Prof Henry K. Bassett addressing one on "Teaching English" and Prof. Herbert E. Bolton, the other, on the Sources of History.

In the afternoon Prof Bassett delighted all by reading and reciting poems by James Whitcomb Riley and Eugene Field. It was indeed a great treat to listen to him, he interperted their thoughts with such rare perfection.

Professors Wood and Bolton gave additional talks, also, which were very instructive.

On Tuesday morning the great feature was the Harvest Pageant presented by the pupils and teachers of the grammar and highschools of San Mateo on the highschool turf. Nine hundred actors and actresses took part and an immense audience assembled to enjoy it. The setting was perfect. The grassy field, the stately trees, the overcast sky and the motionless air—each contributed its part. The music of the San Mateo Highschool Orchestra and the singing of the school children made the numerous pretty dances appear to peefrction. Queen Ceres on her throne was so highly honored that she could not otherwise than receive her gifts graciously. The clouds, the winds, the raindrops, and the sunshine were most beautifully represented. Every teacher was edified by the spectacle.

The several selections by the San Mateo Highschool Orchestra in the auditorium directed by Prof. Holland Frazee were highly appreciated, too.

Other speakers were W. L. Glascock, O. H. Kern of Washington, Prof. Wallace Hatch, G. P. Morgan. The talks of Mr. Morgan who is County Superintendent of Schools of Tuolumne county were particularly interesting as they dealt with the early days of our State.

After all reports were in on Wednesday, Superintendent Roy W. Cloud in a closing address full of appreciation and earnest advice adjourned institute and the teachers returned to their respective schools improved in all respects.

One way to improve your memory is to do something you would like to forget.

GRAND JURY CITATIONS ISSUED

Witnesses for Early Next Week During Grand Jury Investigations

A number of citations were issued from the district attorney's office late yesterday directed to witnesses to appear before the grand jury early next week to give testimony bearing on matters pertaining to Daly City, Burlingame and San Mateo. The names of the witnesses could not be ascertained last evening, although Sheriff Sheehan was busy serving the citations in the north end of the county late last night. The grand jury held a short session during the early part of the week and decided on the character of the testimony to bring before it next week. It is believed some sensational evidence will be offered by witnesses from the north end of the county in connection with wrong doing in that section.

WOODSIDE TRIES TEA-GROWING

California is surely a diversified State and is capable of growing anything that can be produced in any other country. The State excels in oranges and is coming to the front as a great cotton producing state and its rice industry promises to be a big factor in the future. Now comes a Stanford University man who proposes to raise the tea plant with success. He has leased a portion of the old Dougherty ranch above Portola and is setting out the tea plant. Over 25 Japanese are engaged in doing the planting and cultivating the land. The professor earnestly believes that the tea industry may be made to pay in this State. The climate and soil of the Portola valley is similar to that of Japan. He sees no reason why tea cannot be raised here as well as in the Orient.

OTHER WOODSIDE NOTES

F. H. Mowwe, wife and daughter and Miss Isabella Porter composed a party from here who saw the Path of Gold in San Francisco last Wednesday night. The party had a most delightful time.

Mrs. R. Bogle an old resident of Woodside was severely injured by being run into by a San Francisco automobile truck on the Woodside grade Saturday morning. Dr. Chapin was hurriedly called and at present the patient is resting easily.

HAD LIVED AT HALFMOON BAY

The many friends of Fred B. Fillmore formerly of Halfmoon Bay will be pained to learn of his sudden death on October 3. While standing on the corner of First and Humboldt streets, San Jose, waiting for a northbound car Mr. Fillmore was seen to fall to the ground. Assistance was immediately summoned but before he could be taken to his home nearby at 1240 Plum street he had passed away.

Fred B. Fillmore was 48 years of age and was born in Sackville, New Brunswick. He spent his boyhood and young manhood on the coastside of this county.

Fred B. Fillmore was one of the best-known men of the Garden City. He had passed the last fifteen years in the employ of the San Jose and Santa Clara Railroad companies. For a number of years he has occupied the position of assistant superintendent of the company, a position he filled with credit to himself and his employers who held him in the highest esteem. He was firm with those under him but his fairness and upright methods of dealing with his fellow employees endeared him to all and his death will come as a great shock to a large number of friends and acquaintances.

An incident in connection with the death of Mr. Fillmore was the fact that his son, Donald, was a block away running to catch the same car and was the first person to reach the fallen man.

Mr. Fillmore is survived by his widow, Jessie J. Fillmore, his father, James J. Fillmore, two sons, F. Donald and Ralph J., a daughter, Glorian and a sister, Mrs. R. P. Gray.

FACTS vs. KANSAS

"STATISTICS ARE LIKE SAUSAGES—it all depends on the old woman who makes them," once observed a canny Scot, who might easily have had Kansas in mind when uttering that homely simile. Because of prohibition, Kansas has been held up to the rest of the country as a model State.

"Statistics" have been quoted to prove that because of prohibition Kansas has had fewer deaths, less crime, less pauperism, less insanity, more happiness and more prosperity than any other State in the Union. In comparison with official census returns these claims are seen to be absurd.

MORTALITY AND MORALS

Kansas, instead of having a death rate of 7.5 per 1000, as has been claimed, has a rate of 10.60. Twelve registration cities of Kansas have a rate higher than the average for the United States. Of twenty-three capital cities in license States, SEVENTEEN have a lower death rate than Topeka. FOURTEEN of twenty-three registration States have a lower homicide record than Kansas. TWENTY-FOUR States have a LOWER RATE OF SUICIDE than has the registration area of Kansas.

What about the morals of the boys and girls? U. S. Census Bulletin 121 (1910) shows that NINETEEN STATES have a lower rate of juvenile delinquency than Kansas.

DIVORCE AND FINANCE

THIRTY-FOUR STATES have a lower divorce rate than Kansas. SIXTEEN States have a lower rate than Kansas for divorces granted to wives because of the husbands' drunkenness, and FIFTEEN of these are license States.

Prohibition is supposed to make for a richer religious life. U. S. Census Bulletin 103 shows FORTY-THREE States with a larger percentage of church membership than Kansas.

Nor does Kansas make any better economic showing. In 1915, the United States had 11,285,755 savings bank depositors, with savings of $4,997,706,013. Kansas had only 21,671 with $4,576,339. In the whole country one person in every NINE had a savings account, with an average of $442. Kansas had but one in every EIGHTY-THREE, with an average of $211. The average for California was $475. In California more than four people out of ten have savings accounts; in Kansas only twelve out of a thousand!

PAUPERS AND INSANE

Claims were made recently that eighty-five counties in Kansas have no insane persons, and that thirty-eight county poorhouses are without tenants. The truth is, these counties are too poor to care for their crazy persons and paupers, who are consequently placed in State Institutions. TWENTY-FOUR States have a lower rate of insanity than Kansas, and FOURTEEN have a lower pauper rate. Even in the record of insanity caused by strong drink, Kansas is behind NINETEEN other States, FOURTEEN of which are under license laws.

STRONG DRINK RAMPANT

As to drinking and drunkenness. The Wichita Beacon recently stated that records showed 12,000 gallons of liquor were imported into that city every month. Ninety thousand quarts were imported into Topeka in a recent month, two quarts for every man, woman and child in that city.

In Wichita the Chief of Police was arrested on the charge of selling liquor seized from bootleggers. Arrests for drunkenness in Wichita last year were 1480, one to every 35 of population, and there were besides 380 arrests for bootlegging.

Real statistics do not favor Kansas. They prove that Kansas instead of being the most advanced State in the country because of prohibition, has been badly distanced by many license States in the race toward the goal of material and moral well-being.

California is ahead of Kansas in every way; is more prosperous, better governed, has less crime and poverty. Do you want California to keep ahead?
